

Dear Anti-Hunger partner,

You are receiving this email because you have previously signed letters to our state's congressional delegation and Governor Rauner asking them to protect the SNAP (formerly food stamps) program. Attached to this email is another letter asking our elected officials to do just that.

The letter will be sent to the Illinois congressional delegation urging them to reject any and all attempts at the federal level to damage or make cuts to the SNAP program along with other poverty reduction programs.

If you do not wish to sign on to the letter, please respond to this email to opt out by COB Wednesday, January 31st. Otherwise, we will include your organization the letter.

Please circulate this email to partner organizations that may be interested in signing on. New organizations can email kelsielanders@povertylaw.org to be added to the list.

Sincerely,

Dan Lesser
