

Warehouse Associate Apprenticeship Program

- Romeoville: 2nd shift

The DC in Romeoville for KeHE is starting a Warehouse apprenticeship program through workforce development and is looking for candidates who would like to give this a try and get their foot in the door with KeHE. They are having an onsite hiring event on Oct 6th to hire 7 individuals for this great opportunity. Attached is a flyer with info to RSVP, please feel free to share this with anyone who is interested.

People will be picking to a conveyor belt and if folks are interested in equipment operation - they will be taught to operate a large double electric pallet jack, the kind you ride on. I think this is a great opportunity for anyone interested in this career path and looking for full-time, 2nd shift hours.

To add some clarity around the apprenticeship program:

- It will be for permanent full-time Warehouse Selector positions (2nd shift)
 - They will only seriously consider individuals with some basic previous warehouse experience
- They're going to be hiring 7 individuals for 2nd shift dry order selector (Sunday - Thursday: 5:00pm - 1:00am shift)
 - may also hire some palletizers.
- Starting pay is \$18.50/hr.
- There will be additional apprenticeship support like some soft skill classes and additional support provided through the program
 - JEC will be doing most of the classes and providing the additional support
- Individual job coaches are welcome if the candidate has one - nothing will change in that aspect
- There are no prerequisites for the apprenticeship program and an open case with VR is not required
 - just someone with some basic warehouse knowledge who wants to take things to the next level and is looking for full-time 2nd shift hours
