

Tax assistance for free or reduced costs

Question: I am working with a client who would like assistance with filing his taxes but cannot afford the accountant fees as he is unemployed. Does anyone know of an organization that offers free or reduced cost tax preparation? Any information would be greatly appreciated. Thank you.

Loaves & Fishes in Naperville.
I believe they will help virtually.

We have a job coach at PRC who will help her as well:

Email me (Debbie Lunger <DLunger@peoplesrc.org>) and I will pass along the coaches info:

From Brad at PRC :

If you have a job assistance client who indicates they are in desperate straits to get their taxes filed, primary so they can get their refund, let me know and I work a way for me to do their taxes using TurboTax...even simple returns done by H&R Block etc. cost \$250 and up and for someone not employed that is real money, especially having to spend it to get your refund....I can do it for far less, maybe even free if a taxpayer simply wants a paper return filed instead of an e-filed return (I am out of freebies on e-filing using TurboTax). I would do this in a covid-friendly way sharing manually with no face to face interaction if possible. Glad to help out if I can.
