A Salute to Care for Cars Service Providers

As you may know, **Care for Cars** was created due to the identification of transportation as one of the most significant barriers to employment for our clients.

Care for Cars service providers are the glue that hold this initiative together, providing auto parts at cost and their repair services without a profit, enabling our clients to receive repairs at 20% of retail or for a maximum cost of $200. The result is their ability to access and retain employment with safe and reliable transportation.

The holiday season is a good time to express our appreciation to those people and companies that have donated their time, talent and financial resources to make **Care for Cars** a success.

The best way that all of us can show our gratitude to these service providers is to patronize their stores and repair shops whenever we need auto parts or repair services for our own cars. NAPA's auto parts are nationally recognized for their exceptional quality and the service technicians at these repair shops are all ASE certified, which is a highly respected industry designation.

When you visit them, please let them know that you are there in part, due to their work for **Care for Cars.** It's a great way to "pay it forward" to them.

We hope you'll also take the time to visit their website **www.careforcars.org** to view client videos, as a testimonial to the valuable work they do for our agencies.
