

Please Patronize our Care for Cars Service Providers!!

Care for Cars service providers are the repair shops that donate their time and profit to our clients, enabling them to have transportation to conduct a job search and retain employment. Over the last three years that we have been referring clients to them, they have on their own, brought cars for emission testing, towed cars that couldn't be driven to their shops, and replaced worn tires that were safety hazards. They also work within our clients' schedules whenever feasible, to ensure that they have their cars to use again as quickly as possible. They have consistently gone "above and beyond" our expectations and are providing the only service of this kind in the county at such affordable rates which **average 60% of retail!** Studies have shown that transportation in DuPage County is the most significant barrier to employment for our clients, so we truly can't thank our Care for Car partners enough.

We would like to be able to show our appreciation for all they do by asking you to **forward this message to your volunteer base or post this article in your monthly newsletter**. If you live in their vicinity, please consider using them for your own car repairs and referring them to friends and family for car repairs (at normal retail rates). Your referrals to them for service are the best way we can express our gratitude to all of them.

Our Care for Cars repair shops include:

Bartel's Ato Clinic-Patrick Bartel, owner

190 S. Gary Avenue
Carol Stream, IL 60188
630.653.2336
