

NATIONAL SKILLS COALITION

Every worker. Every industry. A strong economy.

Will you tweet to protect SNAP?

The newly introduced Farm Bill (H.R.2.) [undermines](#) critical new investments in SNAP E&T with harsh and ineffective work requirements for as many as seven million SNAP recipients. The proposed changes put many low-income individuals at risk of losing needed assistance while they seek to get and keep family-supporting jobs. It is a missed opportunity to build on the bipartisan consensus on investing in workforce development and ensure that all workers and businesses have the skills they need to compete in today's economy.

This morning, the House Agriculture Committee is "marking up" the bill. **Will you to tweet to the committee and ask them to vote no on H.R.2?** This issue is too important not to get right.
