Every worker. Every industry. A strong economy.

## A week of presents from National Skills Coalition

The holidays are here – and NSC is celebrating with five days of policy scans! NSC and WDQC have scanned all fifty states to determine which states have certain policies in place that expand access to skills. We'll be releasing a scan each day this week.

NSC's [Stackable Credential Policy Scan](#) finds that nineteen states support industry-recognized postsecondary “stackable” credentials that can articulate toward a higher level certificate or associate degree.

### CONNECT WITH US

The scan is a companion piece to NSC's [Stackable Credential Policy Toolkit](#), which provides resources and model legislation to help advance stackable credential policies at the state level.
