

NATIONAL SKILLS COALITION

Every worker. Every industry. A strong economy.

We couldn't do it without you

We're proud to share that National Skills Coalition – *your* Coalition – is making a difference every day for millions of working Americans and thousands of local companies.

While many groups are lamenting about the dysfunction of the Trump administration, the partisan bickering of Congress, and the chaos that is trickling down to the states, *your* Coalition is working hard to take your middle skills agenda from policy proposals to legislative reforms, and ultimately creating programs and services benefiting our communities. Just last week 35 business leaders and their community college partners were in Washington, D.C. talking with their Senators and Representatives about how education and training can better keep pace with the needs of industry, students, and working learners.

You invest your time, expertise, and money to help *your* Coalition advance our shared agenda. That's why I'm reaching out today. [Please consider giving a little more before the year comes to a close. Your year-end tax-deductible contribution will help to position National Skills Coalition for continued success in 2018.](#)

Thank you for your generous support. Your partnership is key to advancing our shared vision of an America that grows its economy by investing in its people so that every worker and every industry has the skills to compete and prosper.

With appreciation,
