

NATIONAL SKILLS COALITION

Every worker. Every industry. A strong economy.

On the fourth day of policy scans, NSC gave to me

A scan about IET!

NSC scanned all fifty states and the District of Columbia to learn which states have integrated education and training (IET) policies in place.

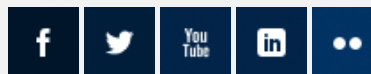

[Our Integrated Education and Training Policy Scan](#) found that eighteen states have IET policies that address the challenge of helping people with basic skills gaps qualify for middle-skill jobs.

The scan goes hand in hand with NSC's [Integrated Education and Training Policy Toolkit](#) – a guide and resource for advocates and policymakers who want to advance IET legislation.

Have you been enjoying this week of policy scans? Will you consider making a year-end, [tax deductible donation](#) to National Skills Coalition? Thanks for your support, and your skills advocacy.
