

NATIONAL SKILLS COALITION

ACTION ALERT

Now more than ever – we can't compete if we cut!

Congress may be winding down their work for the year, but they still have one *major* job to do – they have to reach an agreement to fund government for 2018. Unfortunately, the proposals they're currently considering include drastic cuts to workforce education and training programs. Cuts that would have a direct impact on our workforce, our industries, and our economy.
