ACTION ALERT

Take action and support the BUILDS Act today!

Yesterday, Senators Tim Kaine (D-VA) and Rob Portman (R-OH) introduced the [Building U.S. Infrastructure to Leverage Demand for Skills \(BUILDS\) Act](#) – bipartisan legislation to support local partnerships between businesses and other community stakeholders to prepare workers for jobs in transportation, construction, and other infrastructure sectors.

Both President Trump and Senate Democrats have released plans to incentivize or support up to \$1 trillion in new funding for construction and related projects - investments that could lead to as many as 11 million new jobs.

The BUILDS Act would ensure that businesses could grow their workforces to keep up with this demand and that a diverse range of workers could access the training and credentials needed to find sustainable, family supporting jobs in these fields.
